

## wrangled\_raw

Output season summary sheets (step2\_wrangled\_to\_season\_summary.R render\_season\_summary.Rmd)

Season summary sheets by colony X species

Manually screen season summary sheets

Screened season summary sheets by colony X species

Pull data from screened season summary sheets (step4\_extract\_screened\_season\_summary.R)

change log
with all unique
records in
wrangled\_raw
and
screened hep

compare
screened\_hep to
wrangled\_raw to
generate change log
(step5\_make\_screenin
g\_change\_log.R)

Screened hep in same format as wrangled\_raw

Convert screened\_hep to
HEPDATA format
(step6\_screened\_to\_HEPD
ATA.R)

Updated HEPDATA.accdb

Append to
HEPDATA.accdb
and verify
screened data
matches
HEPDATA

HEPDATA\_ year.csv
